

The Eye Institute of Utah

Is proud to present:

“Understanding Multifocal IOLs and their Importance to your Practice”

***Presented by:
Randall F. Fuerst, O.D.***

Two hour COPE approved education!

Dr. Fuerst will discuss the new IOL technologies that are coming to market today and review the differing options-diffractive optics, refractive, and accommodative. Dr. Fuerst will focus on the patient profile within the optometric practice, educating your patients as to their options, and the value proposition to your practice.
