Education Compliments of:

"Common Oculoplastics and Orbital Disease Processes"

Kristin Tarbet, MD, FACS

COPE # 27577-PO

Dr. Tarbet is board-certified by the American Board of Cosmetic Surgery and the American Board of Ophthalmology. She served her medical internship in the University of Utah's combined ophthalmology/surgery programs, and has taught courses in oculoplastic surgery. She completed a fellowship in plastic and reconstructive surgery at the University of Wisconsin-Madison, and another in neuro-ophthalmology at Washington University/Barnes Hospital. She holds memberships in numerous professional and academic organizations, and has received several prestigious awards for her work including the American Academy of Cosmetic Surgery's Richard C. Webster Award for innovative cosmetic surgical technique, and the Rosenbaum Research Award for clinical research from Washington University. Dr. Tarbet is active in eye surgery and reconstruction research. She has made many professional presentations as well as contributing chapters for textbooks and peer-reviewed scientific journals. She has several patents to her credit.

Managing Difficult Glaucoma and Corneal problems.

When to Refer and What to Refer.

Sharon Richens, MD, FAAO

COPE #: Pending.

Dr. Richens is a board-certified physician and surgeon specializing in the full spectrum of eye diseases and conditions. She completed medical training at the University of Utah School of Medicine in Salt Lake City, her residency in ophthalmology and her internal medicine internship at West Virginia University Health Sciences Center in Morgantown, West Virginia. She completed a corneal fellowship at St. John's Ophthalmic Hospital in Jerusalem, Israel, where she provided eye care to Holy Land residents without regard to race or creed. She is licensed to practice medicine in five states and has been awarded hospital privileges in three southern Utah medical facilities as well as in Idaho and Washington State. A number of professional organizations have published her writings. She has lectured extensively on eye care techniques and diseases, and has been the recipient of meritorious honors and awards. Dr. Richens has served on the Board of Directors for the St. George Chamber of Commerce, and is currently a member of the Health Advisory Board for The Learning Center that provides vision screening for at-risk children from birth to three years of age. She opened the Richens Eye Center in September of 2001. She makes her home in St. George with her husband and daughter.
